ALLFRAME™

Multi-Modular I/O System

AVIOM®

SAVE TIME AND MONEY IN DESIGN AND INSTALLATION

- Replaces traditional analog I/O boxes with a modular digital solution
- Dramatically reduces system installation complexity and labor costs

- Provides uncompromising audio performance and system flexibility

- Field customizable and reconfigurable

Mounting Options

The AllFrame can be mounted on or in a wall (alone or with other electrical and AV infrastructure), used on the floor as a stage box, or mounted in a standard 19" rack (6U required) with connectors facing front or rear.
