Four on the Floor

The CC300 makes it so very easy to get great sound at the push of a button, or two, or three, or four. We've taken all the guesswork out of dialing in the ideal chorus. On many of our competitor's chorus pedals, you have to adjust Level, Depth and Rate controls (and hope the stars are in proper alignment) to get sounds this good. There are no knobs to turn on the CC300, you just select one, or layer more in, to create a shimmering chorus that's all yours.

Class-D - Massive Power, Perfect Sound

The high-quality on/off switch maintains incredible signal integrity in bypass mode, and you can power the CC300 with either a 9V battery, or our [PSU-SB](#) DC power adapter (not included).

Sound Value

Add studio-quality, real-analog stereo chorus to your tonal bag of tricks with the incredibly-affordable CHORUS SPACE-C CC300. There are 4 variations to choose from, and you can combine them for up to 16 different permutations – the ideal chorus for every situation. Your **BEHRINGER** dealer has one waiting on the launching pad just for you – or order online, and our interplanetary distributors will ship one right out!

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Group** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **3-Year Warranty** program.
