# EUROLIVE VP1520D

Active 550-Watt 2-Way  
PA Speaker System with  
15" Woofer and 1.75" Titanium  
Compression Driver

- High-power 550-Watt 2-way PA sound reinforcement speaker system for live and playback applications
- Ultra-compact system delivers excellent sound even at extreme sound pressure levels
- Revolutionary Class-D amplifier technology: enormous power, incredible sonic performance and super-light weight
- Internal switch-mode power supply for noise-free audio, superior transient response and very low power consumption
- Integrated sound processor for ultimate system control and speaker protection
- Extremely powerful 15" long-excursion driver provides incredibly deep bass and acoustic power
- Proprietary 1.75" titanium-diaphragm compression driver for exceptional high-frequency reproduction
- Ultra-wide dispersion, large-format exponential/conical horn
- Ultra-low noise Mic/Line input with Volume control and Clip LED
- Dedicated 2-band EQ for perfect sound adjustment
- Additional Line output allows linking of additional speaker systems
- Trapezoidal enclosure for easy array and sonic accuracy

EUROLIVE VP1520D active loudspeakers are exactly what you've come to expect from **BEHRINGER** – more power, more features and absolutely more affordable! Our engineers have really outdone themselves, creating a self-contained PA solution that merges state-of-the-art, 550-Watt Class-D power amp technology, an integrated sound processor – and exceptional portability. Then we loaded the VP1520D with our best 15" long-excursion driver for incredibly deep bass, and a state-of-the-art 1.75" aluminum-diaphragm compression driver for exceptional high-frequency reproduction. These professional VP1520D active loudspeakers are destined to become legends in its own right, alongside the other **EUROLIVE** models that have made **BEHRINGER** the world leader in active loudspeakers.

- Integral tripod and stand adaptor
- Ergonomically shaped handles for easy carrying and setup
- Rugged steel grille for optimal speaker protection
- 3-Year Warranty Program\*
- Conceived and designed by BEHRINGER Germany

## Class-D - Massive Power, Perfect Sound

Thanks to our revolutionary Class-D amplifier technology, we are able to provide you with enormous power and incredible sonic performance in an easy-to-use, ultra-portable and lightweight package. Class-D amplification makes all the difference, offering the ultimate in energy efficiency and eliminating the need for heavy power supplies and massive heat sinks. This amazing technology makes it possible to design and build extremely powerful products that are significantly lighter in weight than their traditional counterparts, while using less energy and protecting the environment.

## Cut the Fat; Keep the Beef

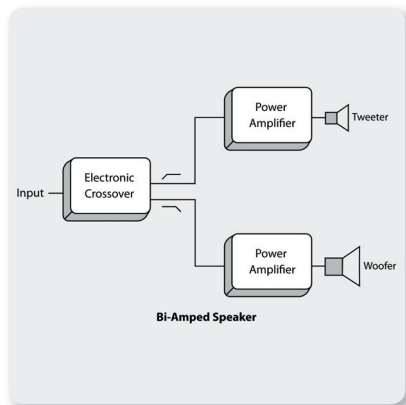

We drew from our considerable experience to build these performance-grade loudspeakers and made them lighter (54.5 lbs/24.8 kg) and more powerful. With custom-engineered Class-D power amps for the ultimate in power and efficiency, backed by SMPS (Switch Mode Power Supply) technology – the VP1520D loudspeaker can run cool all day and all night without even breaking a sweat – or your back!

### Bi-Amplification - The Path to Absolute Signal Integrity

With its 550 ultra-clean Watts of digital output through separately-powered drivers, courtesy of true bi-amping (2 amplifiers per speaker system), the VP1520D delivers high-resolution sound that really brings out the best in your music. While some of our competitors apply simple passive crossovers, which inaccurately separate the frequency spectrum and degrade driver performance, **BEHRINGER** has gone the extra mile – driving each woofer and tweeter with a separate amplifier for absolute signal integrity.

### Custom-Engineered Transducers

Powerful, high-efficiency Class-D amplifiers and Switch Mode Power Supply technology coupled with an integrated sound processor sure sounds impressive – but what about the part of the system you actually hear? Our LF (Low Frequency) and HF (High Frequency) transducers are designed specifically for each application – it's what sets us apart from the competition. When you buy a **BEHRINGER** active loudspeaker, you can rest assured the transducers inside have been engineered to perform flawlessly with every other element for truly professional results. The VP1520D cranks out massive quantities of low end, with articulate, detailed mids and crystal-clear highs.

### Extraordinarily Versatile

Thanks to its trapezoidal shape, the VP1520D is suitable for a wide variety of applications, such as mounting on standard speaker poles, vertical placement atop subwoofers, or even laid on the side for use as onstage monitor wedges. The VP1520D's extraordinary fidelity and frequency response make them a favorite of vocalists and instrumentalists alike. Hookup is simple, requiring only a single XLR or 1/4" cable from your mixing console and power. Additional active monitors can be chained together via the XLR Link Output jack on the rear panel.

## Which Speaker Should I Buy?

Well, let's start with your application... are you giving a speech in a hotel ballroom – or rocking out at the local bar or dance club? Whether to choose one speaker cabinet over another depends on your bass requirements. A 15" woofer has about 40% more surface area with which to move air than a 12" and that translates into more bass. So if you're addressing a small meeting, or jamming at the coffee house, the [VP1220D](#) might be all you'll ever need. But if you're providing disco in a busy nightclub, hosting Karaoke night in your living room, or just need to crank it up louder, then the [VP1520](#) may be a better choice.

## Sound Value

The EUROLIVE VP1520D active PA loudspeaker stands head and shoulders above the rest of the pack, and delivers exceptional performance – even when pushed to the limit. Lightweight with custom-designed transducers, 550 Watts of bi-amplified Class-D output power and an onboard 2-band EQ, the VP1520D is ideal for both speech and music applications – at a price that is unheard of in this class.

Experience the VP1520D at your local dealer today and find out why more and more professionals are turning to [BEHRINGER EUROLIVE](#) active loudspeakers for their superb performance and extraordinary value.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [MUSIC Group](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty](#) program.
