

HUM X™

EXTERMINATE HUM AT THE SOURCE!

Ground Hum is the enemy of installers, contractors, sound engineers & musicians alike. Ground Loop Hum can be very hard to get rid of since it does not follow any set rules. Ground lift adapters (which are one common way around Ground Hum) are not safe!

Model
Hum X

Suitable for use
on any grounded
120V outlet
Max Current: 6 Amp

The Hum X™ filters out unwanted low voltage from the ground line that causes hum and buzz while maintaining the ground. Simply place the Hum X™ on the end of the power cord of the equipment that has (or is creating) ground loop hum plug the Hum X™ into the wall outlet. Ground Loop is gone and audio signal remains intact. Easy to use, easy to install and completely effective!
