

Overview

The ultra compact 200-watt YX10SP is the perfect subwoofer solution for small live sound or PA installations where additional low frequency support is needed. Designed to be the ideal companion for the YX10P powered full range cabinet, the YX10SP uses a high efficiency front mounted 10-inch woofer to deliver solid, even bass response.

Features

- 200 Watt Integrated Class-D Amplifier
- 10-inch Long Excursion Woofer
- Maximum SPL: 120dB (Continuous)
- Integrated 80Hz Crossover Outputs
- Balanced Inputs and Outputs
- Integrated Bar Handles & Top Speaker Mount

YX10SP Rear Panel
